WordPress Plugins

The Pdfcrowd WordPress plugins make it easy to convert your website content into PDF or send it via email. With no technical knowledge required, our plugins automatically add a 'Save as PDF' button to your website. Visitors can simply click the button to download your content as a PDF, without leaving the page. In addition to PDF, we also support converting your content to various image formats.

Save to PDF Link

The Save to PDF Link is a feature that allows visitors to your website to easily save web pages to PDF. With just a short HTML code, you can add a 'Save to PDF' button or link to your web pages, making it simple for users to convert your content without leaving the page. The Save to PDF Link does not require any server-side integration, just copy and paste the code into your web pages.
